## LOCAL Y. M. C. A.

To Participate in Telegraphic Indoor Athletic Meet and Expected to Win Silver Loving Cup.

Physical Director Wallace and Boys' Director Meyers of the Y. M. C. A. are making the arrangements to have the boys of the Junior department of the local branch participate in the Telegraphic Indoor Athletic Meet, to be held on December 18. The meet is one in which every Y. M. C. A. branch in the entire state will compete.

The Telegraphic Indoor Athletic Meet is one of the most novel events ever planned by the Y. M. C. A. officials and it has been planned with great originality. Those who compete in the events will do so in their respective gymnasiums and immediately upon the conclusion of the performance of their feats, the results will be telegraphed to the state headquarters, which will probably be at Youngstown. The wiring of the reports is taken as a precautionary step to avoid the "boosting" of the number of points on the part of one association when they learn the number gained by another. Only the number of points gained by the three highest in each event are to be telegraphed, and unless wired immediately they will not be counted.

The object of the meet is to stimulate an all-round physical work in the boys' department. Every department in the state may enter, but departments must not register later than December 7. Boys desiring to compete must register with the local boys' secretary or physical director not later than December 14. A fee of five cents shall be paid by each competitor, and the amounts gathered in this manner are to be forwarded to the headquarters to cover the printing and other incidental expenses.

A silver loving cup for each class with a suitable inscription will be presented to the department gaining the highest number of points. The cups can be held for one year, and permanent possession will be allowed after winning for three consecutive years. Messrs. M. J. Samuels and Jones & Sons, of Youngstown, are the donors of the cups.

The program will consist of the following events: Running high jump, standing broad jump, pull up, 18 feet rope climb, 10 yards dash. The classification of the competitors must be as follows: Class A, 16 to 18 years; class B, 14 to 16 years; class C, 12 to 14 years. The total number of points for the three highest men in each event shall count, this method, probably better demonstrating the all-round efficiency of the department than any other.

The committee on arrangements for the meet are Messrs. Godfrey, of Dayton; Munton, of Akron; Shepard, of Lima; Roehme, of Columbus; Post, of Youngstown, and E. T. Honey, of Youngstown, chairman.

One of the rules that will govern the events of the meet is that no official of the Y. M. C. A. shall act as judge, thereby avoiding any tendency on the part of such an official to rule partially.

Both Directors Wallace and Meyers were extremely optimistic in speaking of the outlook for the winning of one of the cups by members of the local association. Wallace said: "We have some fine athletes in our Junior department, and it will be surprising to me if we do not carry off one of those cups."

It is planned by the officials of the Y. M. C. A. to make November 30, the red letter day for the local association. This day will mark the culmination of a monster canvass by which it is proposed to add one hundred new members to the organization. The membership committee has been looking after the matter secretly for some time, and yesterday real work began.

## ALL TAXES MUST BE PAID AT COURT HOUSE

County Treasurer Clark W. Metzger issued the following notice to tax payers of Stark county yesterday which is self explanatory:

To meet the convenience of those taxpayers of Stark county, farthest from the county seat, it has been the practice of the treasurer to make collections at certain times in various parts of the county.

The state examiners have declared the practice an irregularity and without any authority or warrant of law. The prosecuting attorney maintains the same position.

Regretting very much the inconvenience that may be caused to persons who were thus favored, it is the plain duty of the treasurer to adhere to a strict and rigid observance of the law, and the regulations of the state bureau of inspection and supervision. Conforming to the above no tax collections will be made at any other place than the treasurer's office at the court house.

Every legal means at the disposal of the treasurer will be utilized to provide for your convenience in the payment of your taxes.

If it is so desired, you can, by giving location of your property specifying whether real or personal or both, and enclosing postage for reply, receive a statement of the amount and can then make payment by check, draft, postoffice money order or other acceptable and negotiable paper. The usual rush and congestion near the end of the tax collection period can be greatly obviated if payment is not delayed until the last week or two.

## JOHN D. CONCLUDES; TRUMP CARD PLAYED

New York, Nov. 19.—John D. Rockefeller finished his testimony at 4 o'clock this afternoon and the examination will continue tomorrow. When he had finished the Standard Oil Co. played its trump card. Documentary evidence was introduced to prove that as far back as 1878 the Standard Oil Co. of Ohio controlled thirty different oil producing concerns, consequently the merging of the entire interests under the Standard Oil Co. of New Jersey, the parent corporation, was not a violation of the Sherman anti-trust act which did not become a law until 1908. Rockefeller was cool on the stand. He told how the Standard got Archbold and Rogers. The former was absorbed with Pratt concern of Brooklyn, and the latter was picked up in Pennsylvania. Said that company was constantly reaching out for more refineries and markets. He told how the interest were allied with the Pennsylvania railroad and got rebates to that disadvantage of the Standard, the rate was followed and the light terminated by the Standard, Empire lines, refineries and pipe lines, and the Pennsylvania forming a car trust to take over the Empire cars, the Standard purchasing the car trust certificates. He denied the rate war was precipitated to crush the Empire line and facilitate its purchase.

## MORE CONCISE LAW

On Subject of Roads Favored by Ohio Commissioner.

Columbus, O., Nov. 18.—The annual report of James Wanders, state commissioner of highways, filed with Governor Harris, shows that during the year contracts were made for improvement and construction of roads in 19 counties. Of these eight are brick and eleven macadam. The estimated cost of these highways is \$256,186, of which the state paid \$93,528. Application has been made by 44 counties and a total of \$230,000 has been forwarded as the state's share.

Mr. Wanders recommends that a more concise good roads law be passed and that property owners be given better opportunities. His idea is to have the property owner pay one-fourth or not more than one-third of the cost, the county and township to pay the balance. His desire is to make one trunk road through the state.

## FORTUNE GONE

Mayor Tom Johnson Will Continue His Fight for People of Cleveland—To Be a Candidate Again.

Cleveland, Nov. 19.—Mayor Tom Johnson's fight for better street-railway conditions for the people of Cleveland has cost him his personal fortune. He will give up his home on Euclid and move to a smaller house as soon as he can. His automobiles will go, too.

Determination to stick to the fight he undertook when he became mayor in 1901 has brought about the sacrifice, together with his efforts to save the estate of his brother Albert for the widow and four children.

He has poured his personal fortune unsparringly into the enterprises conducted by his brother at the time of Albert's death in July, 1901. He refused to leave his work in Cleveland to give his time to managing the estate, and through this lack of personal direction one reverse has followed another, until the mayor has practically exhausted his resources. "I'm going to be happy yet," said Mayor Tom. "We may have to go back to a cottage, but that's the way we started, and we can look upon life just as joyfully there as we did in the big house on Euclid."

"They tell me my enemies are planning to bring financial trouble upon me. I've been expecting it. There's one mistake I haven't made—that of failing to foresee the efforts of those who would like to destroy me in opportunity presented."

"My enemies are capable of doing that. One may expect nothing else from special privilege. However, I realize that any other set of men in the same circumstances would act the same."

"Let them do what they may," and Mayor Tom's eyes flashed as he drew himself up in his chair and gripped the arms. "Let them make any sort of attack upon me that they choose, with whatever success, and they will still find me with a thousand fights left in me."

"I'll never give up. I'm well and strong and confident, and they'll always find me at the front. "I'm going to keep on just as I've started. I'm going to be a candidate for mayor again when this term is over."
